

KingsWay Community Preschool

Support Network Data Base Information

As part of the Family Liaison role, we have in place a data base which provides some practical support for preschool families from both KingsWay Community Preschools. This letter is to outline the types of things we can provide should the needs arise, and to offer you the opportunity to be involved in a voluntary way. It seems, with a large combined (Red Beach/Silverdale) roll of children, it is inevitable that there are going to be situations that arise that would benefit from our support. If you are aware of any situations (for yourself or others) that could benefit from this support please talk to Karryn Raikes or Angela Carter.

The areas of support we have in mind are:

- Meals – for families coping with trauma/new baby;
- Transportation in emergency situations;
- Parenting Courses – Parents Inc. Tool Box courses;
- Prayer support – praying for our preschool community;
- Preschool social events;
- Support group for families of special needs children. This may be as low key as a get together for coffees and a chat!

For these areas of support to continue we need to continuously update our data base of names. We would love you to think about ways that you (and/or your partner) may be able to assist. This does not mean that you could not be on the receiving end of the help if the need were to arise. Please give this some thought, **tick any areas below** that you would be interested in, or would like more information on. **Return the form** to Preschool.

Feel free to come in and chat about anything, or phone Debbie Stratton or Angela Carter on 09 426 5619.

Thank you – *Debbie Stratton and Angela Carter*

---✂-----

- Meals** – for families coping with illness/trauma/new baby. This is a data base of people willing to provide a meal on occasions. The more people on the list the fewer times you would be required.
- Transportation** - in emergency situations. This may be to or from preschool for a short period for a child if parent is unable to drive due to illness etc.
- Prayer support** – praying for our preschool community.
- Preschool social events** - to assist if necessary for parent and children's events... maybe baking? Helping with ideas?
- Support group** - for families of special needs children. I would like to be involved or can lend a listening ear.
- I support the concept of a family support network; however I am unable to be directly involved at this stage.
